RAGHAD KHALID BIN TWALLAH

Electrical Engineering Student

Riyadh, Saudi Arabia • +966 55 873 4345 • eng.raghadt@gmail.com • raghadkt.github.io/Portfolio

PROFESSIONAL SUMMARY

Motivated final-year Electrical Engineering student at King Faisal University, expected to graduate in January 2027, with practical experience in circuit design, embedded systems, and MATLAB/Simulink analysis gained through a senior capstone project in optical-fiber sensing and hands-on hardware prototyping. Able to translate theoretical concepts into functional prototypes and to present technical work clearly through well-structured reports and presentations. Seeking a cooperative training opportunity in Riyadh to contribute to engineering projects and develop professionally within an industry environment.

EDUCATION

King Faisal University — Al-Ahsa, Saudi Arabia

Bachelor of Science in Electrical Engineering — **Expected Graduation: January 2027**

Relevant Coursework: Power Systems, Embedded Systems, Circuit Design, Control Systems, Fiber Optic Communications.

ENGINEERING PROJECTS

Vibration Measurement System Using Optical Fibers — Senior Capstone Project (EE 495)

Team of three · Supervisor: Dr. Mohammed Alshakhs

- Engineered a vibration measurement system based on optical-fiber sensing as a member of a three-person capstone team.
- Authored core chapters of the technical report and led a comprehensive restructuring of the document in response to supervisor feedback, enhancing its clarity and technical accuracy.
- Prepared and delivered the final project presentation to the department committee.

TECHNICAL SKILLS

Hardware & Design: Circuit Design, PCB Prototyping, Sensors & Actuators, Power Systems

Software & Tools: MATLAB, Simulink, AutoCAD, Multisim, Arduino IDE, Tinkercad, Fritzing

Programming: C, C++, 8086 Assembly

Professional Skills: Technical Documentation, Teamwork, Problem-Solving, Presentation, Research

CERTIFICATIONS & TRAINING

Creative Engineering with Arduino — IEEE KFU Student Branch (3 hours) — **Nov 2025**

Introduction to Renewable Energy: How It Is Changing the World — KFU College of Engineering — **Nov 2025**

VOLUNTEERING & ACTIVITIES

Community Work Principles and Fundamentals Course (Raed Basic) — **Mar 2024**

Al Fozan Academy, in partnership with Saudi Aramco's initiative to promote volunteering in Saudi Arabia
